

# Our sizing information center makes it easier to get the right fit

To make it easier for you to find and read apparel sizing information we have placed most of it in one convenient place. **See item description for which size chart applies. Please note that not all uniforms and apparel come in all the sizes shown in the chart, so please see item for size availability.** Also, note for a few items the information is still included in its description. These include some pants,

gloves and all footwear that have simple sizing descriptions. Other exceptions include special items that require detailed sizing information like body armor and turnout gear. To help you determine what size you should order you will also find on these pages information on how to measure your size. Just see the "How-to-Measure..." guide at the bottom of the facing page.

## BELTS/BIKE APPAREL/CASUAL/OUTERWEAR/TRAFFIC VESTS/T-SHIRTS

<b>A</b>	MEN'S	SM	MD	LG	XL	2X	3X	4X	5X	6X

## How-to-Measure Information for Men and Women

Use a cloth tape measure to determine your correct size.

**For Helmets, Caps or Hat Size** — Measure completely around the head, starting approximately 1" above eyebrows in front and going around the largest point at the back of the head.

**For Chest/Bust Size** — Measure just under the arms, completely around the back and across the broadest part of the chest area. Hold tape firm and level. For body armor, see product description.

**Neck** — Measure a shirt that fits you well. Lay the collar flat and measure from the center of the collar button to the far end of the button hole. The number of inches equals your size.

**Sleeve** — Measure from the center of the collar (in the back), across the shoulder and down the sleeve. Number of inches equals sleeve length.

**For Women's Hips** — Stand with heels together and measure around fullest part of hips.

**Inseam** — Take a pair of uniform pants (not jeans) that fit you well. Measure (to nearest inch) from the crotch seam to the bottom of pants.

**Belts** — If between "even" sizes, order the next larger size. Order 2" larger than your waist size.

**Gloves** — Measure around hand at fullest part (exclude thumb). Number of inches equals glove size. Consult the chart given for the gloves you are ordering to convert inches to the size you need for that product.
